We would suggest to our citizens the propriety of planting shade trees along the streets in front of their property. This new steamer, being built for Smith Brothers, to run on the inland route, in connection with the Northern Bell, is going to be a model of neatness. She will differ from the Northern Belle in that she will have two cabins, one fore and aft, each fitted out with taste and elegance. The ladies cabin, which is aft, will be 18 feet by 11 feet, with wash room and water closet in the rear. The gentlemen's cabin will be forward of the engines and will be 12 feet long by 11 feet in width at the rear and 8 feet at forward end. There will be sufficient width of deck each side of the cabins for passengers to pass back and forward and considerable deck room aft of the ladies cabin, where passengers can enjoy them-selves in various ways. She will also

Counties Around Us. Happy Little Ones.

To the Editor of the Northern Tribune.

We have had many pleasant and brilliant gatherings here this season, but decidedly the sweetest occurred on Wednesday afternoon at the residence of R. Robinson, given in honor of little Willie's first birth-day. Fifteen little ones, from two years up to six, came rosy and smiling, each bringing an offering. The presents were numerous and beautiful.

smiling, each bringing an offering. The presents were numerous and beautiful. Willie was wild with delight. He would kiss the sweet mouths and pat the soft little cheeks in his baby way, to show his pleasure. Willie's mama made everything so pleasant for them. Games and nice refreshments were amply provided. The children were all models of good behavior.

One little lady, on being asked her age, archly replied, "Two eers old iss ping." May Willie live to be a joy and honor to his parents, and each birth-day be as enjoyable as the last. Mr. Robinson only regretted that he had not secured the services of a photographer and kept a picture of the prettiest scene he had ever witnessed.

From recent advices we learn that the land excitement has spread over the entire upper peninsula, and the land office at Marquette is crowded with business, more acres have been located at that office in the last three months than for three years preceeding. All kinds, pine, mineral, hard wood and farming lands, are being taken, the largest tracts being along the line of the M. & M. railroad. Much has been located in the back part of this county, and we notice that those hardwood tracts we recently mentioned are being gobbled up.—Chippewa County News.

Election Notes

At the election monday 415 votes were cast, against 367 last spring. At times considerable warmth was manifested at the polls, but all was in a friendly spirit and harmonious.

One aspiring candidate to the highest privilege of an American citizen, wanted to vote on the strength of his having reg-istered at the Benton House.

Something wrong in the atmosphere in the village last Monday. Notwithstanding the saloons were all closed, a number seemed to be under the influence of benzine, but, of course, it was not whisky that was troubling them.

Well, Mr. Editor, it did not cure me in three-fourths of a second, nor in one hour or month, but in less than eight minutes I was relieved, and in three months entirely cured, and have remained so for over sixteen months. While using the catarrh remedy, I used Dr. Pierce's Golden Medical Discovery to purify my blood and strengthen my stomach. I also kept my liver active and bowels regular by the use of his pleasant purgative pellets.
